Mr Richard Yelland ProActive Sales UK Limited

We employed Richard to launch a new medical product for us during the period June to September 2004. Richard came in part way through the launch and undertook a telephone sales campaign for us that soon produced results. The product is technically complex and Richard needed a full understanding of the application in order to discuss the product with medical specialists.

We used Richard to manage the launch of a second medical product during the period October 2004 to March 2005. This time we asked Richard to manage the complete launch including a market survey, telephone sales, demonstrations and sales visits. The launch was completed on time and resulted in sales above our expectations. Richard generated a number of key contacts during the launch phase and these contacts have proved invaluable subsequently.

Richard is a sales and marketing professional and someone you can trust with your business. We are happy to recommend him to other businesses.

A handwritten signature in black ink that reads "Duncan Aston".
